Hurricane for the Long Haul

We have been building boats for over 60 years and have sold more deck boats than all other manufacturers combined. Hurricanes are built to last. They are constructed with more durable materials and the deck and hull are bonded together to create a strong foundation for your on the water adventures.

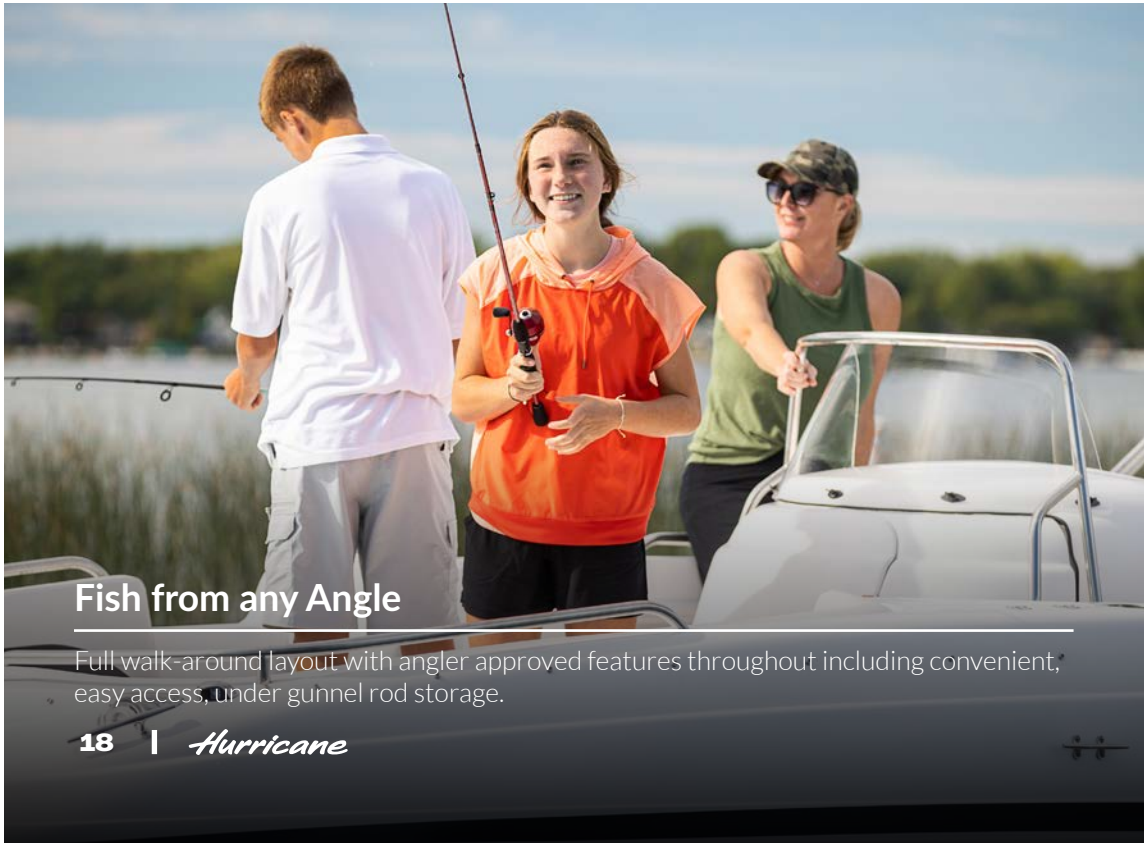

Hurricane Deck Boats are Better

Our Coast Guard rating and NMMA certifications mean we take boat building seriously. We fill each compartment with closed cell foam to obtain the best rating from the Coast Guard and to ensure a quieter ride. We build the best boat the industry.

Hurricanes are Wide from the Front to the Back

Stability while at speed and in close quarter maneuvering, stem from the wide platform hull we are built upon. Leveraging a reverse chine hull that has performance lifting strakes, and low speed stability, provides the foundation that every Hurricane is built on.
